

# WHAT'S NEW IN THE AWARD-WINNING AT3™

We built the new AT3™ to respond to what consumers told us they wanted for different tyre sizes of an All-Terrain tyre! Based on consumer insights, two variations were developed:

**AT3<sup>LT</sup>™ - XLT™** with light-truck construction with the capability to carry and tow heavy loads.

**AT3<sup>4S</sup>™** with SUV construction for weekend adventures. The All-terrain champion of all-weather.
